

This issue is dedicated to:

- Jensine, Denmark's Oldest Sailing Ship, Equipped With Siral Valves
- New Valves for Varnish and Paint

## NEWS FROM THE SIRAL WORLD OF BRASS VALVES

The present information sheet is dedicated to our customers and to everybody who is interested in staying in contact with Siral and be informed about activities, new products, participation to international trade fairs and all developments of the company life which are relevant to our present and future customers. If you do not wish to receive this info-sheet anymore, please send a short cancellation request to [sales4@siral.com](mailto:sales4@siral.com)

### JENSINE, Denmark's Oldest Sailing Ship, is Equipped With Siral Brass Ball Valves.

If you are fond of sailing and of old sailing ships (or just curious), we invite you to visit this interesting internet site which is dedicated to Denmark's oldest sailing ship, called Jensine, with full story of the ship and details about her restoring:

[www.jensine.dk/english.htm](http://www.jensine.dk/english.htm)

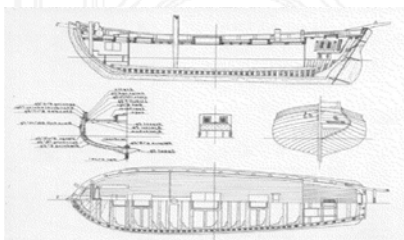

This sailing boat uses ball valves from Siral in the sea water pump system.

Here are some photos:

"Jensine" is only kept sailing due to people who give their free time and energies to maintain her.

If you plan a trip to Denmark and would like to see "Jensine" then contact [freesfaaborg@freesfaaborg.dk](mailto:freesfaaborg@freesfaaborg.dk)
